Sergey Pereslegin formulated structure interactions principle. Sorry, only Russian version is available. http://www.igstab.ru/materials/Pereslegin/Per_Interact.htm
http://www.igstab.ru/materials/Pereslegin/Per_Dialect.htm Unfortunately, he covers only some special cases. I tried to cover the whole picture

Same-level systems

B: Agrees to reach some goal for A	B Gives A Resources to A	A: Threatens B	B: Nothing
A: Agrees to reach some goal for B	Resources barter	B - Employer of A	B - Master, A - slave
A: Gives Resources to B	A - employer of B	Resources barter	B robs A
A: Threatens B	A - Master, B - slave	A robs B	Threaten exchange, fight
A: Nothing	A outwits B; or B altruistically helps A	A steals from B or cheats	A ignores threaten from B

A is supersystem of B

B: Agrees to reach some goal for A	B Gives A Resources to A	A: Threatens B	B: Nothing
A: Agrees to reach some goal for B	Communist Society	Capitalist Society	Political protest
A: Gives Resources to B	Socialist Society	Community	Strike
A: Threatens B	Slavery	Tribute	Aggressive standoff
A: Nothing	Voluntary subordination	Voluntary donation	Strong dictatorship (ignores)
